

Discover the secret to potentially reducing your taxable income and boosting your take-home pay!

Thousands of Aussies are already benefiting from novated leasing thanks to its pre-tax dollar repayments. Uncover how you could save on income tax, enjoy potential GST savings, and hopefully put more money in your pocket.

But wait, there's more! Learn about the game-changing Australian **Government Electric Vehicle (EV) Discount** that could save you thousands and lower your taxable income even further.

What on earth is a novated lease?

Discover now

What is the electric car discount?

Great question. To encourage take up of electric cars, the Australian Government introduced the Electric Vehicle (EV) Discount. It simply means that if you take out a novated lease on an eligible electric car or plug-in hybrid below \$89,332, you don't pay Fringe Benefits Tax (FBT). You could save thousands, on top of all the other potential tax benefits of a novated lease. Check this surprising cost comparison with a petrol car;

The Electric Car's driveaway price is over \$20,000 more, yet you pay the same per week as the petrol car.
